- 10** Dicky is making a cube from a net. One face is shaded black, one is shaded grey and one is shaded grey with a diagonal line.

In each part of the question below mark the square on the net that needs to be shaded black to make the same cube as Dicky's.

(a)

(b)

(c)

Question (and working space)

ANSWER

Please do not write in this space

**11** TJ is sorting out prices for the snack shop at school, he has a box of 15 chocolate bars. He bought the whole box for £4.05. He plans to sell the bars for 35p each.

(a) How much money will TJ receive if he sells all 15 bars at 35p?

(b) How much did TJ pay for each bar when he bought the box?

TJ also has two types of cereal snacks: raisin bars and nut bars. Each raisin bar is 12p more to buy than a nut bar. Nine raisin bars and twelve nut bars cost £5.28.

(c) How much more do nine raisin bars cost than nine nut bars?

(d) How much does a raisin bar cost?

R  
W  
(4)

**12** Lily is planning an activity weekend with her youth club. She has asked 60 members of the club what they would prefer to do.

In each part of this question, indicate whether the statement about the pie chart is true or false.

(a) True or false? The sector labelled 'archery' is created with a right angle.

(b) True or false? Five more members wanted to do archery than basketball.

(c) True or false? Two thirds of the members wanted to do either skating or archery.

Question (and working space)

ANSWER

Please do not write in this space

**13** In each part of this question, write down the value in the list that is the biggest.

(a) Which is biggest?

0.503, 0.53, 0.35, 0.535, 0.3555, 0.5

(b) Which is biggest?

$\frac{3}{4}$ ,  $\frac{5}{6}$ ,  $\frac{8}{9}$ ,  $\frac{2}{3}$

(c) Which is biggest?

$\frac{1}{4}$  of 21, 50% of 11,  $\frac{1}{3}$  of 17

**14** Petrov wants to “listen again” to several shows on the radio and is checking the list of broadcast times.

FM Ez-Hv 27.5 – 26 September	
1715	Crunch Time
1748	Request Slot
1757	Travel
1800	News on the Hour
1803	Power Hour
1852	Re-mix Revenge
1857	Travel
1900	News on the Hour

(a) How long does the ‘Power Hour’ show last?

(b) Petrov downloads and listens to the ‘Request Slot’ and the ‘Re-mix Revenge’ immediately after each other. He starts listening at 1952, what time does he finish?

(c) What time should Petrov start to listen to the ‘Crunch Time’ download, if he wants to finish listening at 2015?

Question (and working space)

ANSWER

Please do not write in this space

**15** This question concerns the number sequence that is formed starting at '100', then repeatedly following four steps: adding 2, dividing by 2, adding 1, multiplying by 2.

(a) The first two numbers are 100 and 102. What are the next three numbers in the sequence?

(b) Which number comes after 108 in the sequence?

(c) The 21st number is 120 and the 22nd number is 122. What is the 24th number?

**16** Anwar is playing 'think of a number'. He does not always think of whole numbers. In each part of the question work out Anwar's original number.

(a) Anwar thinks of a number. He doubles it and subtracts 17 from the result. He then has 15.  
What was Anwar's original number?

(b) Anwar thinks of a number. He subtracts 17 then doubles the result. He then has 15.  
What was Anwar's original number?

(c) Anwar thinks of a number. He halves it and subtracts 17 from the result. He then has 15.  
What was Anwar's original number?
